

# Let's Go Hunting

**THE WORLD** is full of things to discover. All you have to do is look and listen! Next time you're bored, go on one of these "hunts" with your friends or family.

## Alphabet Hunt

Sometimes things in nature look like letters of the alphabet. For example, many twigs and tree trunks are shaped like a "Y." If you look carefully, you can find lots of different letter shapes in nature.

Sandy Swartzentruber works for Faith Formation Ministries and is a member of Sherman Street CRC in Grand Rapids, Mich. She loves to discover new things.
